Status of COVID-19

As of 19 March 2020, COVID-19 is no longer considered to be a high consequence infectious diseases (HCID) in the UK.

The 4 nations public health HCID group made an interim recommendation in January 2020 to classify COVID-19 as an HCID. This was based on consideration of the UK HCID criteria about the virus and the disease with information available during the early stages of the outbreak. Now that more is known about COVID-19, the public health bodies in the UK have reviewed the most up to

how do I know that #covid19 is a hoax?
those damned

Koch's Postulates

Koch's Postulates are the **Gold standard for determining** if an **infectious agent** was indeed **causing the disease** that is claimed it does.

Koch's Postulates:

- 1) The **microorganism** must be **found in** abundance in all **organisms suffering** from the disease but should **not** be found **in healthy organisms** (Everyone with the disease should have the same symptoms).
- 2) **Purification ~ Microorganisms must be isolated** from disease organisms and grown in a pure culture (Isolate what you say is causing disease from all other genetic material so **you only have** what you say is **causing the disease**).
- 3) The **cultured microorganism** should **cause disease** when **introduced** to a **healthy organism** (Inject the so-called cause into another person and they must get the disease).
- 4) The **microorganisms must be re-isolated** from the inoculated, diseased experimental host and **identified** as being **identical** to the original specific **causative agent** (Take the material from the injected person and then inject that into another living host who must also get the disease).

I emphasize, not a single one of those postulates was carried out for this alleged Covid-19 Pandemic! [2.0] [2.02] [2.04]

The Ogster
@Ognir2

Man those Rule
Koch's Postulates
&
Rivers Criteria

None of this has been
Because they just weaponized the flu season

Rivers Criteria:

- 1) Isolate virus from diseased host
- 2) Cultivate virus in host cells
- 3) Proof of filterability
- 4) Produce same disease in host
- 5) Re-isolation of virus
- 6) Detection of specific immune response to virus

Official Swiss Data

1483 tested C19+ and died
of which, 1415 full data available

Of the 1415 cases, 97% of the dead had 1) hypertension 2) diabetes 3) heart problems

We got scammed folks, now just open the F up again and see what we can repair

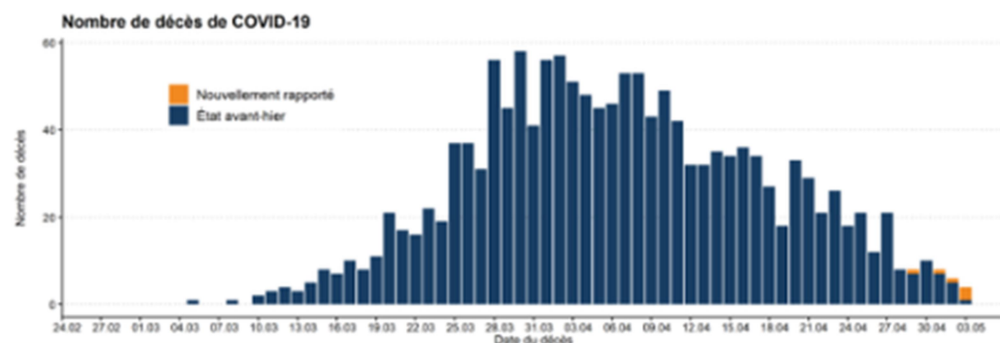

bag.admin.ch/bag/en/home/kr...

Décès

Jusqu'à présent, 1483 personnes testées positives pour le COVID-19 sont décédées en Suisse et dans la Principauté de Liechtenstein. Cela correspond à 17 décès par 100 000 habitants.

Sur les 1415 personnes décédées pour lesquelles les données sont complètes, 97% souffraient d'au moins une maladie préexistante. Les trois maladies préexistantes les plus fréquemment mentionnées chez des personnes décédées étaient l'hypertension (64%), les maladies cardiovasculaires (57%) et le diabète (26%).

Figure 6: évolution du nombre de personnes décédées en lien avec un COVID-19 confirmé en laboratoire en Suisse et dans la Principauté de Liechtenstein.
En haut : nombre de cas décédés par jour ; en bas : nombre de cas décédés cumulés. Les nombres pour les derniers jours sont provisoires, car d'autres déclarations sont encore attendues.

MASK WEARING

- Reduces oxygen up to 60%
- Increases risk of CO2 poisoning.
- Causes increased face touching.
- Viruses & bacteria saturate the outside.
- Touching mask and surfaces spreads germs.

Doc Graham

Yesterday at 7:36 PM · 🌐

MASKS! Folks, let a surgeon of 30 years (a.k.a. me) teach you about MASKS. COVID 19 virus particle size averages 125 nanometers (0.125microns); the range is 0.06 microns to .14 microns; one needs an electron microscope to see a COVID 19 virus particle. The hoarded N 95 mask filters down to 0.3 microns. So, N95 masks block few, if any, virions (virus particles). This is a simple fact, so you just cannot argue against it. Other surgical masks, home-made masks and kerchiefs do the following: 1) they allow free passage both ways (in and out) of COVID 19 virions. 2) they become a warm, damp or moist reservoir of COVID 19 particles in asymptomatic "carriers" (estimated to be 85% of all people tested). For surgeons, years of training, intimidation, and humiliation teach us to touch NOTHING but our surgical field. Lay people constantly touch, re-arrange, and manipulate their "masks", wonderfully inoculating thousands of virus particles onto their bare or (even worse, gloved) hands. So, these absurd masks ENCOURAGE the fomite transmission ("infected" articles-to-hand-to face transmission of the virus). So, go ahead and allow idiots to delude and mislead you to the false sense of security--and danger--of masks!

Private hospitals commandeered for Britain's Covid-19 crisis are STILL empty - despite huge backlog of NHS patients needing routine surgery and vital cancer treatment

More than 8,000 private beds in England were hastily bought up by ministers in March in anticipation of NHS hospitals being overwhelmed by Covid-19 cases.

@Ognir2

so post "The Covid" my thoughts

- no trust in medical establishment for playing along with the hoax
- never to a vaccine
- media showed what lying bastards they are
- governments can't be trusted
- Most people 97% are sheeplike

and epstein didn't kill himself

let me make a correction

I've been saying that no one from 0 - 45 died in Switzerland of, with, whatever #covid19

Big headline, 31 year old woman from Geneva died
Lady was rather large and had diabetes
2x doctors diagnosed her the Flu

Her parents are now suing the 2 doctors

Posted on March 18, 2020 | In [News](#)

New Zealand MPs have introduced the most extreme abortion law in the world after the Abortion Legislation Bill passed its third reading in Parliament.

The bill passed by 68 votes to 51 – a much

What do your results mean?

If you test positive

- A positive test result shows you might have antibodies from an infection with the virus that causes COVID-19. However, there is a chance a positive result means that you have antibodies from an infection with a virus from the same family of viruses (called coronaviruses), such as the one that causes the common cold.
- Having antibodies to the virus that causes COVID-19 might provide protection from getting infected with the virus again. If it does, we do not know how much protection the antibodies might provide or how long this protection might last.
- Talk with your healthcare provider about your test result and the type of

perfectly said
me thinks I've repeated this number a 1000 times already

covid is a hoax, cover for things we might find out about soon

Trase @allymally13 · Jun 29
#floridacovid

The CDC just released an antibody study projecting over 25 million people have already had the coronavirus, which drives the death rate down to, at most, .5%, which means 99.5% of all infected, regardless of age, survive.

“If COVID was so deadly, you wouldn’t need any testing....as it would be obvious to the naked eye. Like scurvy for example. So the government parades around with a test, a test never designed to test for COVID, declaring healthy people as infected with COVID. Wouldn’t all the COVID sick already be in the hospital? Why does the government need to go out into the community, declaring healthy people infected, if the virus is so deadly? It’s because the government is lying.....”

Koch's Postulates

Koch's Postulates are the **Gold standard for determining** if an **infectious agent** was indeed **causing the disease** that is claimed it does.

Koch's Postulates:

- 1) The **microorganism** must be **found in** abundance in all **organisms suffering** from the disease but should **not** be found **in healthy organisms** (Everyone with the disease should have the same symptoms).
- 2) **Purification ~ Microorganisms must be isolated** from disease organisms and grown in a pure culture (Isolate what you say is causing disease from all other genetic material so **you only have** what you say is **causing the disease**).
- 3) The **cultured microorganism** should **cause disease** when **introduced** to a **healthy organism** (Inject the so-called cause into another person and they must get the disease).
- 4) The **microorganisms must be re-isolated** from the inoculated, diseased experimental host and **identified** as being **identical** to the original specific **causative agent** (Take the material from the injected person and then inject that into another living host who must also get the disease).

I emphasize, not a single one of those postulates was carried out for this alleged Covid-19 Pandemic! [\[2.0\]](#) [\[2.02\]](#) [\[2.04\]](#)

The Ogster
@Ognir2

Man those Rule
Koch's Postulates
&
Rivers Criteria

None of this has been
Because they just weaponized the flu season

Rivers Criteria:

- 1) Isolate virus from diseased host
- 2) Cultivate virus in host cells
- 3) Proof of filterability
- 4) Produce same disease in host
- 5) Re-isolation of virus
- 6) Detection of specific immune response to virus

MASKS! Folks, let a surgeon of 30 years (a.k.a. me) teach you about MASKS. COVID 19 virus particle size averages 125 nanometers (0.125microns); the range is 0.06 microns to .14 microns; one needs an electron microscope to see a COVID 19 virus particle. The hoarded N 95 mask filters down to 0.3 microns. So, N95 masks block few, if any, virions (virus particles). This is a simple fact, so you just cannot argue against it. Other surgical masks, home-made masks and kerchiefs do the following: 1) they allow free passage both ways (in and out) of COVID 19 virions. 2) they become a warm, damp or moist reservoir of COVID 19 particles in asymptomatic "carriers" (estimated to be 85% of all people tested). For surgeons, years of training, intimidation, and humiliation teach us to touch NOTHING but our surgical field. Lay people constantly touch, re-arrange, and manipulate their "masks", wonderfully inoculating thousands of virus particles onto their bare or (even worse, gloved) hands. So, these absurd masks ENCOURAGE the fomite transmission ("infected" articles-to-hand-to face transmission of the virus). So, go ahead and allow idiots to delude and mislead you to the false sense of security--and danger--of masks!
